Registration and login for dealers in Germany and importers:

Applicants must meet the following condition in order to be recognized as an ABTe Partner:

- A contract with ABT e-Line has to be signed

Registration

- Visit the ABT e-Line website: <https://www.abt-eline.com/information-for-dealers/>
- Fill out the contact field „Registration for ABT e-Line web portal“ and upload the registration form (provided by ABT sales team via E-Mail) and the training certificate (can be handed in later)
- Receive a registration E-Mail from ABT e-Line and login into the ABT e-Line web portal <https://shop.abt-eline.de>

Registration form:

Login

- Go to <https://shop.abt-eline.de> and fill out user name and password as mentioned in the registration E-Mail
- Change the password according to your specifications
- Visit the ABT e-Line web portal

Ordering the electrification:

- Choose the right product:
 - Menu „product groups“
 - Product group „electrification new vehicle“
 - Choose the right model

Add the part to the shopping cart

ABT e-Line Web-Portal / Product Groups Warenkorb: 25.148,00

1 Product Groups

2 Product Groups

- Electrification new vehicle
 - T6
 - Caddy left-hand drive
 - with AC in driver's cab
 - without AC
 - Spare parts ABT e-T6
 - Spare parts e-Caddy
 - ABTe Special tool kit

3 Filter

Line	Part	Description	Net price
1	7000011	Electrification Abt eCaddy AC, without rear window	25.316,81 EUR
2	7000017	Electrification Abt eCaddy AC, with rear window	25.316,81 EUR

Attention:

There is no buildability test with the base vehicle. Please make sure that the base vehicle is equipped with air conditioning as well as you choose air conditioning again when ordering the electrification part. It must also be differentiated whether the base vehicle has a rear window or not.

Calculation of the WLTP-values:

- Go to the shopping cart (symbol cart: top right)
- Click on the symbol „WLTP“ → a new window opens
- Choose the model
- Enter empty weight base vehicle
- WLTP values are calculated automatically and written in the boxes in the shopping cart
- Create a template → a pdf-document will open
- WLTP-values are listed in the offer and can be shown to the customer

ABT e-Line Web-Portal Log Out

Please note that per order only 1 electrification can be added to the cart. Please create a new order for each additional item.

Place an order:

- By clicking on „Buy“ you get to the next page to choose the shipping address
- The shipping address is only important for the spare parts since Volkswagen logistics handle the shipping of all new vehicles
- In the last step you see an overview of the order. By clicking on „Send shopping cart“, the order is transmitted to ABT e-Line
- After checking the order, an order confirmation is sent to the user by ABT.

Select Shipping Address

Please note that the logistics of electrified new vehicles are handled by Volkswagen. The shipping address given here is solely for shipping the spare parts.

Is the shipping address you want to use shown below?

If yes then click on the corresponding button "Send to This Address".

The general terms and conditions of ABT e-Line GmbH do apply: www.abt-eline.com/terms-and-conditions-e-line

1 Shopping cart:

- After the part has been added to the shopping cart, the quantity can still be changed.
- In this section, an offer can be created and saved in the templates.

3 Overview order:

In the last step, an overview of the shopping cart is presented.

Access for dealers abroad:

- Dealers from abroad have the possibility to access the ABT e-Line web portal in order to look at all sales and aftersales information and place an order through their importer.
 - **Registration:**
 - All dealers register themselves at an online platform. The individual login information are sent to them afterwards automatically.
 - To enter the registration platform, they receive a link from their importer. The importer can get the link (valid for multiple users) from ABT e-Line by writing an E-Mail to b2b.webportal@abt-eline.de .
 - **Content of the web portal:**
 - Importers can send a pricing list (valid for one year) to the ABT sales team with prices for their dealers. The dealers will then see those prices in the web portal. They have limited rights which don't allow them to place any orders.
 - **Place an order through the importer:**
 - Dealers can create offers that are saved in the section „offer templates“. All offers from the dealers can be seen and accessed by the importer.
 - If a dealer would like to place an order, he has to tell the importer the Doc. No. from the offer template. The importer can add this offer to the shopping cart and place the order through the normal ordering process.
- **Important:** as soon as the template is added to the shopping cart, the pricing will change automatically to the prices as negotiated between importer and ABT e-Line
- The importer has to make sure that the commission number and WLTP-values are filled out by the dealers in order to place the order.

Multiple orders:

To avoid that vehicles must be entered vehicle by vehicle, ABTe Line gives the possibility of ordering via mail by describing the needed variant and number of electrification

- These method requires minimum 15 identical vehicles
- Using this ordering process: please send an e-mail to: b2b.electrification@abt-eline.de , name the exact number of needed vehicles and give a clear reference to the VW order with the complete VW commission number (Komm.-Nr) using the following scheme:

Pos.	Part nr. B2b portal	Part labeling according to b2b portal	VW order number for basic vehicle (Komm-Nr) & BID	Price according to b2b portal
1	7000045	Electrification T6.1, LOL 90 km/h, KH6, I7D	123456-BID-year	25.184,00 €
2	...			

The order is processed in the same way like single orders. You receive an order confirmation via E-Mail including all necessary information.
