

ABT e-Partner Registration Form

Applicants must meet a range of conditions in order to be recognised as an ABT e-Partner:

- ABT e-Line training certificates from a VW training centre for individual employees are to be provided and added to the ABT e-Line website in PDF format. This can be uploaded on the ABT e-Line website as part of the registration as an ABT e-partner, or after the Aftersales training has been successfully attended.
- A one-off payment of €3,294.50 for the diagnostic/special tool supplied by the company ABT e-Line and a monthly licence/support fee of €74 are required. The prices are subject to statutory VAT. ABT e-Line GmbH offers a discount of 3% for the monthly licence/support fee if the payment is made via direct debit. The diagnostic/special tool can be purchased on the ABT e-Line web portal.
- Likewise, the high-voltage or special tool necessary for ABT e-Line, Volkswagen must be procured or rented from Volkswagen. Existing authorisation from Volkswagen High-Voltage Partners is advantageous.
- In order to sell ABT e-vehicles, a concomitant service availability is essential.

ABT e-Line Services:

After ABT e-partner status is granted, ABT e-Line will publish the partner's contact location data on the VW dealer portal and on the ABT e-Line website. By entering the profile data, the partner gives consent to ABT e-Line to publish it. This will be used to provide a map of the ABT e-partner dealer network in Germany. The contacts listed here will have access to the ABT e-Line web portal to initiate orders.

Please fill out the following fields completely and return the signed document together with the training certificate (can be provided later) to us via the following link: <https://www.abt-eline.de/info-fuer-haendler/>
